

save the planet. save money. get certified.

Rethink Your Work Commute

Since 1956, May has been recognized as National Bike Month with the third week in May designated as Bike to Work Week.

Biking to work is part of a healthier lifestyle and decreases traffic congestion, lessens parking constraints, and reduces green house gas emissions. Bike to work and show your sustainability efforts at your business. [Sign-up for Bike to Work Week today!](#)

New Businesses Join the Petal Project

The Petal Project welcomes American Trust, U.S. Cellular, and the City of Dubuque (City Hall and Municipal Services Center) to the program. There are now twenty-six participating businesses. For a complete list, visit the [Petal Project website](#).

May Petal Connect

The May Petal Connect session will take place on Friday, May 18th at the culmination for Bike to Work Week, Handle Bar Happy Hour. Handle Bar Happy Hour will be held at Stone Cliff Winery starting at 4:00. Feel free to join us for music and good conversation about alternative transportation options in Dubuque.

Petal Project businesses have a wealth of knowledge when it comes to sustainability so why not share it with each other? Each month we will host a Petal Connect session for Petal participating businesses. This is your opportunity to learn from each other and use your shared knowledge to solve common challenges.
